

## ENDORSEMENT CITY & SOUTHWEST ACOUSTIC ADVISOR

<b>Review of</b>	<b>Construction Noise and Vibration Management Plan for Waterloo Integrated Station Development (WA-ISD)</b>	<b>Document reference:</b>	Construction Noise and Vibration Management Plan prepared by VMS Australia for John Holland, Rev F0.2 dated 3/05/2021 Sydney Metro Ref: SMCSWSWL-JHG-SWL-EM-PLN-000005 CNVMP_Rev 0.2.pdf
<b>Prepared by:</b>	Larry Clark, Alternate Acoustics Advisor		
<b>Date of issue:</b>	10 June 2021		

As approved Alternate Acoustics Advisor for the Sydney Metro City & Southwest project, I have reviewed and provided comment on the Construction Noise and Vibration Management Plan for Waterloo Integrated Station Development works, as required under A27 (d) of the project approval conditions (SSI 15-7400). The management plan also includes the Noise and Vibration component of the Construction Monitoring Program required by the approval.

My colleague Dave Anderson reviewed and commented on previous revisions, and endorsed Revision F. Subsequent revisions G, H and 0 of the plan were updates to address DPIE comments, to a DPIE approved version. Rev 0.1 incorporated minor edits as part of an annual review. I reviewed and had no comments on Rev 0.1. The current version Rev 0.2 is a finalised document.

I endorse Rev 0.2 of the Construction Noise and Vibration Management Plan for Waterloo Integrated Station Development works. I also endorse the Noise and Vibration component of the Construction Monitoring Program that is included in the Plan.

Dave Anderson, City & Southwest Acoustic Advisor
